

**DREAM MAKER**

I am grateful to Mrs. Tekelia Kelly for inviting me to share this time with you. I have known, Tekelia for several years and last night as we spoke on the phone, I realize that it has been longer than I really want to admit. However, Ms. Kelly has always been a hard worker. She is what I call a Dream Maker. She has the amazing ability to envision something and then pursue it until she receives it.

I am also grateful for this group of professional business people. You have awarded me a great opportunity to do, what I enjoy most, and that's talk about my job. Maybe you are not aware of who you are. Maybe you just think that you are a part of a group. But, you can not imagine the power you have in numbers. Not only so, but when you begin to tap into the resources of each other, you then create a whole new entity with limitless possibilities. Let me warn you, you are dangerous. Zig Ziglar says, if you help enough people fulfill their dreams then you will see your dreams fulfilled.....

I am here to inspire you to become the greatest gift to mankind. I am here to encourage you in your efforts to succeed. I am here to motivate you, not just to dream but to become a dream Maker. A dreamer is that person who has the ability to see something. They know, they want to be somebody great, they want to do some marvelous feat but they never get beyond dreaming about it.

I know you have met a dreamer, that's is the person that is constantly saying I am going to ..... or I want to be .... Or I am going do ..... but this person never stops to put their plan into action. Don't get me wrong. To dream is good. But, let me explain **that the** difference, between a Dreamer and a Dream Maker is that a Dream Maker is a visionary, she constantly keeps her dream in view. He is always planning and working on how he can accomplish that dream. His question is always, What will make it work? On the other hand, She is never at a point of defeat. She never losses sight and always sees a way that she can obtain her dream. In difficult times, he holds to the fulfillment of

his vision. And finally, **this is** the person that achieves their dream AND FULFILLS THEIR GOALS. They are the Dream Makers.....

I want to talk to the person who came today expecting to sharpening their life skills. I want to talk to the person that knows that they have purpose in life but have become stagnated and needs a boost. I want to talk to the person who is about to give up. I want to talk to the person who is ready to go to the next level in life. I want to talk to the person who wants to advance from a dreamer to a dream maker.

Have you every wanted something so bad you could taste it. Maybe it is that business, you want it to grow, you want it to advance but the process is slow. Now, that's a good sign. Slow means that it is moving but not at the pace you wish.....

Here is your challenge
